

ANNOUNCEMENT OF AN INTERNATIONAL CALL FOR THE SELECTION OF A PhD HOLDER RESEARCHER

Internal code: **Researcher/Horizon/i3S/2304/2025**

A call is opened for the position of a PhD holder, for an unfixed term work contract to carry out research duties within the project “GENIE - Genomic Evaluation and Nutritional Integration Experience”, with reference DRG4Food - OPEN CALL #2, GA 101086523, funded by the European Commission.

Scientific Area: Life and Health Sciences

1. Project summary and work plan

Nutrition plays a fundamental role in disease prevention. An adequate and balanced diet is essential to maintain a strong immune system, promote cardiovascular health, and reduce the risk of chronic diseases such as type 2 diabetes, obesity or some types of cancer. Our project aims to revolutionize the grocery shopping experience by offering ultra-personalized nutritional recommendations based on advanced genetic tests. We aim to develop a shopping list/recipe recommender system based on (i) genetic, (ii) gut microbiota and (iii) biochemical blood test, as well as (iv) consumer preferences. This initiative is a collaboration between two companies, GUNDO, a startup that combines retail technology and foodtech to promote a healthy lifestyle, and ADN Institut, a health center and genetic laboratory specialized in promoting solutions focused on preventive medicine, with the Genetic Diversity group from i3S, with experience in high-throughput genotyping and definition of polygenic risk scores.

2. Applicable Portuguese legislation

Portuguese Labor Code, in its current wording.

3. Jury

Chairman: Luísa Pereira; Other Members: Verónica Fernandes and Ana C. Magalhães; Substitutes: Raquel Almeida.

4. Workplace

i3S - Rua de Alfredo Allen, 208 Porto, research group Genetic Diversity.

5. Professional category and monthly remuneration

Junior Researcher

€2,351,53, corresponding to index 33 of the Tabela Remuneratória Única, whose application is intended for PhD holders with reduced post-doctoral experience or without a post-doctoral scientific curriculum.

6. Obligatory requirements for admission

1. PhD degree in Life and Health Sciences or Biological Sciences;
2. Motivation Letter in English, indicating availability to start the contractual position on 01/06/2025;

**Funded by
the European Union**

3. Proven experience in mastering advanced molecular genotyping techniques;
4. Experience of leading teams in day-to-day laboratory work;
5. Proven experience of interacting with companies in the transversal application of the knowledge generated;
6. Articles in indexed, peer-reviewed international journals in the field of human genetics and/or knowledge transfer.

7. Evaluation of the applications and publication of the results

The evaluation of the scientific and curricular background of the candidates should focus on the activity of the last five years that the candidate considers most relevant. The five-year period may be extended by the jury, at the candidate's request, when justified by suspension of scientific activity for socially protected reasons, namely for reasons of parental leave, prolonged serious illness, and other situations of unavailability for work that are legally protected.

Weight of the different curricular valuation criteria:

- a) Curriculum vitae (72%):
 - a. Proven experience in mastering various advanced molecular genotyping techniques (18%);
 - b. Proven experience of interaction with companies in the transversal application of knowledge (18%);
 - c. Scientific experience in the field of human genetics/knowledge transfer, including articles in indexed international journals and oral communications (18%);
 - d. International professional experience and participation in research projects in areas relevant to the project (18%);
- b) Motivation letter (18%): Level of interest and motivation in the area of research and suitability for the position, as well as indication of availability to start duties on 01/06/2025;
- c) Interview - *optional* (10%).

If the jury decides to obtain further clarifications and additional information about the curricular elements presented, the three best candidates classified on the basis of the curriculum may be called for an interview.

Candidates are excluded from admission to this call if they do not fill out their application correctly or do not meet the obligatory admission requirements. If in doubt, the jury may ask any candidate additional documents in support of their statements.

False statements made by candidates will be sanctioned in accordance with the law.

The jury will draw up minutes of its meetings, which can be consulted at the candidate's request within 10 working days after the selection results are released.

**Funded by
the European Union**

The jury deliberates by means of a reasoned vote according to the evaluation criteria, with no abstentions allowed, and draws up a list of excluded and admitted candidates, ordered by respective classification.

All candidates are notified of the selection results by email. After notification, candidates have 10 working days to comment.

In the 90 days following the deadline for submission of applications, the jury's final decision is communicated to the candidates. Subsequently the institute Director, who is also responsible for the final decision of hiring, will ratify the decision of the jury.

This call is intended exclusively to fill the indicated position on offer and may be canceled before the final ranking list of candidates is ratified by the Director. Accordingly, the position will no longer be available.

8. Submission of applications

Applications must include all the documents proving that they fulfill the admission requirements, namely:

- a) Copy of certificate or diploma;
- b) Detailed Curriculum Vitae;
- c) Motivation letter in English;
- d) Other relevant documents.

The submission of applications is digital, in pdf format, from 23/04/2025 to 08/05/2025, in the following link:

<https://dozer.i3s.up.pt/applicationmanagement/#/addapplications/9b261ff3d2efb61885d2444a58c681e>

9. Start and duration of the contract

The anticipated start date of the contract is 01/06/2025 and is subject to budget availability. The maximum duration of the contract will be 3 months.

10. Non-discrimination and equal access policy

i3S actively promotes a policy of non-discrimination and equal access. No applicant shall be privileged, benefited, prejudiced, or deprived of any right or exempted from any duty on the basis of ancestry, age, gender, sexual orientation, marital status, family situation, economic situation, education, origin or social condition, genetic heritage, reduced work capacity, disability, chronic illness, nationality, ethnic origin or race, territory of origin, language, religion, political or ideological beliefs, or trade union membership.

Within the framework of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers, i3S adopts the Open, Transparent and Merit-based (OTM-R) principles for the recruitment of researchers, with the aim of conducting fair and transparent recruitment processes, bringing equal opportunities to all candidates.

11. Applicants with disabilities

Under the terms of Decree-Law 29/2001, of February 3, the candidate with a disability is given preference in equal ranking, which takes precedence over any other legal preference. Candidates must declare under oath their degree of disability, the type of disability and the means of communication/expression to be used in the selection process, under the terms of the aforementioned decree.
